

## Salisbury Cathedral Archive Catalogue: Vestry

Please note that the catalogue is in the process of development and will be updated periodically as new items are catalogued. Older document reference numbers have been recorded in the full catalogue entry maintained by the archivist. For enquiries please contact the archivist directly.

Reference	Level	Title & Description	Date
VE	series	Vestry	
VE/1	sub-series	<p><b>Register of Services</b></p> <p>The register of services book is used to record every service of public worship, together with the name of the officiating minister and of the preacher (if he be other than the officiating minister), the number of communicants, and the amount of any alms or other collection and, if desired, notes of significant events. The register should hold information about every service that has taken place at the church, therefore the more information that is available the better as long as it is legible and relevant. A standard service register would require: <b>Date, day and time of service: Type of Service: Officiating Minister: No of Communicants: Attendance (under 16s and over 16s): Preaching Minister: Subject and notes: Amount of collection.</b></p>	
VE/1/1948-51	item	<p>Register of Services</p> <p>The register of services for Salisbury Cathedral. The register starts from September 26 1948 and goes till July 7 1951. It lists every service during this period along with the day and time it took place. There is also the name of the Celebrant, along with the number of congregation and the number communicating.</p>	1948 - 1951
