The day ends with a special Evensong, led by the Cathedral's Director of Music, David Halls, and performed by all the visiting children alongside the choristers. Sat 3 Oct, 1–6pm. New Visual Identity Following consultation with different stakeholders, Salisbury Cathedral is introducing a new visual identity, including a new logo, to better reflect our mission, strategy and the ways we engage with worshippers, visitors and the wider community. It will help us to better represent the Cathedral as an important place of worship and international visitor destination. You will begin to see the new visual identity introduced gradually across Cathedral materials and communications. The first changes will be new visitor signage in the Cloister and visitor entrance areas, installed during the week commencing 28 September, followed by new branded liturgical materials, including Orders of Service, Music Schemes and Sunday Notices, from 3–4 October.

The Heavenly Music of Nuns: Hildegard of Bingen, Leonora d'Este and Raffaella Aleotti

Many of the composers we associate with the sacred music sung in our Cathedrals are male, yet women of faith have composed music from the earliest times. Worshippers' Forum It is one of our pleasurable tasks each year to suggest to Chapter several local charities to receive a small proportion of the Cathedral's Charitable Giving fund. We ask for members of the worshipping community who would like to nominate a local charity to contact us, and we can provide them with the necessary application forms. The Forum will meet shortly and would welcome any concerns or comments from the congregation to be discussed and passed on to Chapter. Contact details are available on the Forum board in the south aisle. Sonia Woolley.

Heating We are carefully monitoring temperatures as we head into autumn. We plan to turn on the Cathedral heating towards the end of October, as usual. Please dress appropriately during this transition period. This arrangement supports our environmental aspirations: even in the marginal months of April and October, heating the Cathedral for just one day emits as much carbon dioxide as it takes 24 mature trees a whole year to absorb.
